

Harmar®

Outlander DE

The **Outlander DE** is a dual-entry, three-rail scooter lift compatible with both 3- and 4-wheel small to mid-size scooters. The lift features an integrated automatic scooter lockdown arm designed to provide a secure self-locking mechanism for compatible mobility scooters. The simple hitched-based installation requires little to no modification to your vehicle or mobility device and allows for easy removal. The drive-on/drive-off platform enables loading from either end of the lift and takes the hassle out of loading your mobility scooter in a busy parking area.

FEATURES AND BENEFITS

- 350 lb (158.8 kg) lifting capacity
- Compatible with Class II, III, or IV hitches
